

# HAMPTON<sup>®</sup>

Hampton Steel Limited

UK MANUFACTURER OF  
**VINE TRELLIS AND PERIMETER  
SOLUTIONS FOR VINEYARDS**

## VINELOK™- STRONG, DURABLE AND SIMPLE TO INSTALL

Hampton Steel are proud to introduce the Vine Lok™ vine trellis system which combines the strength and versatility of Hampton's own patented and award winning Versalok® post with Hampton's new Vine Lok™ clip. Together these offer the vineyard professional a system which is easy to install and use throughout the growing season.

The Vine Lok™ clip can be positioned at any point along the Versalok® post and can easily be removed and replaced as the vine grows.

The trellis wire is easily connected, disconnected and reconnected to the clip even when the clip is fixed to the post and no wire threading is required. When used in combination with Gripple® wire joining and tensioning products the vineyard professional has a truly flexible and easy to use vineyard trellis system.

Hampton's Versalok® post and stainless steel Vine Lok™ Clip are guaranteed for 30 years and when used with Class A zinc and aluminium coated steel wire the user has a long-lasting system.

### FEATURES

- Strong
- Long lasting
- Easy to use
- Versatile
- No wire threading required

### ACCESSORIES

Vine Lok™ integrates easily with Gripple® and other joining and tensioning products to provide a complete vine trellis system.

## VINELOK™ PARTS LIST

Item	Description
<b>Posts</b>	
End Post	Versalok® 2.9m long / 2.5mm
Intermediate Post	Versalok® 2.5m long / 1.5 mm
Hampton Post Protector	For driving in posts
Hampton Post Caps	
<b>For anchoring</b>	
GPAK 4 Plus M (3 metre)	Wire rope and accessories
Apex 4 with 1.5 metre wire rope tendon	Ground anchor, driven in by Gripple® anchor driving tool
<b>Or alternatively</b> Apex 4 with 1.5 metre fibre tendon	Ground anchor, driven in by Gripple® anchor driving tool
<b>For fruiting wire</b>	
Hampton Vine Lok™ Clip	For retaining the fruiting wire
2.5mm diameter standard tensile Zinc/Aluminium coated wire	Fruiting wire
Gripple® GP no1	Wire joining product. Tensioned with Gripple® tensioning tool
<b>Or alternatively</b> Raddisseurs	For holding and tensioning the fruiting wire
<b>For trellising wire</b>	
Hampton Vine Lok™ Clip	For retaining the trellising wire
2.5mm diameter high tensile Zinc/Aluminium coated wire	Trellising wire
BS4 centre drills and Self-drilling / Tapping screws	To attach Vit - S to post
Gripple® Vit - S	Attached to anchor post and used to tension trellising wire with Gripple® tool
<b>Or alternatively</b> Hampton ring clip	To secure chain hanger
Hampton chain hanger	For connecting chains
